DETAILED ACTION

Response to Amendment

1. This Office Action is responsive to the Amendment filed 8/15/06 and the Declaration filed 8/30/06.
2. The Amendment filed 8/15/06 and the Declaration filed 8/30/06 successfully overcome the objections and rejections set forth in paragraphs 2-6 of the Office Action mailed 5/3/06. Accordingly, these objections and rejections are withdrawn.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 1756

Claims 45-67 and 85-101 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 3-10 of U.S. Patent No. 6,503,581 for the reasons of record as set forth in paragraph 1 of the Office Action mailed 5/3/06, and as further discussed below.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 93-101 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 93-97 and 101 are drawn to "[t]he film of claim 68", however claim 68 is drawn to a method, not to a film. This rejection could be overcome by correcting the dependency of claims 93-97 and 101 from claim "68" to claim --85--.

Similarly, claims 98-100 are each drawn to a film, but depend from method claims 80-82, respectively. This rejection could be overcome by correcting the dependency of claim 98 from claim "80" to claim --97--, correcting the dependency of claim 99 from claim "81" to claim --98--, and correcting the dependency of claim 100 from claim "82" to claim --99--.

Allowable Subject Matter

5. Claims 22-44 and 68-84 are allowed.

Response to Arguments

6. With respect to the obvious double patenting rejection, Applicants propose to file a Terminal Disclaimer at the time of which allowable subject matter is indicated as being present. The Examiner notes that claims 22-44 and 68-84 are allowed. Furthermore, claims 45-67 and 85-101 would be allowed if a Terminal Disclaimer is filed, and if the claim dependency of claims 93-101 is corrected.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
